

**To upgrade the software on your Lowrance unit, you will need a computer with an SD/MMC card reader. Follow instructions below to download the zip file to your computer, unzip and copy the update files to SD/MMC card**

1. Click on the Download Software link to save the zip file to your computer
2. Open the zip file and extract (unzip) the file(s) to your computer
3. Insert a blank SD/MMC card that is 512MB or larger, not to exceed 1GB in size, into the SD/MMC card reader.
4. Copy the extracted file(s) to your SD card.

**Installing the update on your unit (If you have a LGC-2000 on the boat you MUST update it prior to updating your head unit)**

1. Turn your Lowrance unit off.
2. Place the SD/MMC card containing the updated operating software in the unit's SD/MMC card slot.
3. Turn your unit on. The software update will automatically install.
4. After the install is complete, remove the SD/MMC card from the unit, the unit will restart

---

## Checking the software version in your Lowrance Unit

1. Press the 'MENU' button twice
2. Select *System Setup* from the Menu and press 'ENTER'
3. Select *System Information* from the menu and press 'ENTER'
4. The current software version is displayed.
5. If your software version corresponds to the software version listed for your specific unit at [www.lowrance.com/en-US/Software-Updates/](http://www.lowrance.com/en-US/Software-Updates/) then you do not need to perform the software update.
